

## Rechargeable Batteries and CFL's

Residents can recycle their rechargeable batteries and Compact Fluorescent Light Bulbs (CFL's) themselves. The following stores accept batteries and CFL's.

CFL collection locations:

Lowes; Chambersburg and Shippensburg

Rechargeable batteries:

Lowes (only batteries from power tools)

Battery One

Battery Warehouse

RadioShack

However, if you do not regularly travel to these stores, you may take them to one of the reception desks (Northgate, Menno Village, or Penn Hall main entrance) and the receptionist will place them in a box that the Green Team collects regularly. Please wrap CFL's in a sheet of newspaper to prevent breakage. **Only rechargeable batteries are accepted; non-rechargeable batteries, i.e., alkaline (AA, A, C, D, 9V, etc.) are not recyclable.** A Green Team member takes the collected batteries and bulbs to a store in town that accepts these products.
